EDBT/ICDT 2012 Joint Conference
March 26-30, 2012 - Berlin, Germany

The EDBT series of conferences is an established and prestigious forum for the exchange of the latest research results in data management. Held in an attractive European location, the conference provides unique opportunities for database researchers, practitioners, developers, and users to explore new ideas, techniques, and tools, and to exchange experiences. The previous events were held in Venice, Vienna, Cambridge, Augsburg, Valencia, Konstanz, Prague, Heraklion, Munich, Nantes, St Petersburg, Lausanne and Uppsala. Following the successful SIGMOD/PODS model, EDBT and ICDT are held annually as joint conferences, beginning in 2009.

ICDT: 15th International Conference on Database Theory, March 26-29, 2012

ICDT is a scientific conference on research on the foundations of database systems. Having a European identity, it is typically held in historical European locations; ICDT can be seen as the European version of PODS (the ACM Symposium on Principles of Database Systems). Previous ICDT events were held in Rome, Bruges, Paris, Berlin, Prague, Delphi, Jerusalem, London, Siena, Edinburgh, Barcelona, St Petersburg, Lausanne and Uppsala. Since 2009, ICDT is held annually and jointly with EDBT, following the successful SIGMOD/PODS model.
